---

## Work History

---

<b>Ass. Prof.</b>	<b>Arizona State University, School of Nutrition and Health Promotion</b> 2011-present Assistant Professor, Nutrition
-------------------	---

---

## Education

---

<b>Postdoc</b>	<b>Stanford University, Stanford Prevention Research Center</b> 2008-2011 Postdoctoral Research Fellow Primary Mentor: Abby King Secondary Mentors: Thomas Robinson, William Haskell
<b>Internship</b>	<b>VA Maryland Health Care System/University of Maryland, Baltimore Psychology Internship Consortium</b> 2007-2008 Clinical Health Psychology Intern Supervisors: Stephen Bono, W. Clint McSherry, Lorrie Morris
<b>PhD</b>	<b>Rutgers – The State University of New Jersey</b> 2004-2008 PhD, Clinical Health Psychology “Symptoms as a moderator of the relationship between beliefs and behaviors among patients undergoing coronary artery bypass surgery.” Advisor: Richard J. Contrada
<b>MS</b>	<b>Rutgers – The State University of New Jersey</b> 2002-2004 MS, Psychology “Depressive symptoms and perceived social support in myocardial infarction patients: Associations with markers for inflammatory activity.” Advisor: Richard J. Contrada

**BA**                    **The State University of New York at Albany**  
 1998-2002  
 BA, Summa cum Laude, Psychology  
 Minors: Biology, Education, Music

---

## **Research Interests**

---

My research program focuses on how to use digital technologies to promote physical activity and healthful eating across all levels of the social ecological model. In addition, I'm interested in using interventions as experimental tests of theories and exploring new methods and technologies (e.g., smartphones, cloud computing) for speeding the pace behavioral science for translating insights into practice.

---

## **Publications** (Total Published/In Press, N=39)

---

### **In Preparation** (N=3, first author n=3)

**Hekler, E.B.**, Buman, M.P., Grieco, L., Rosenberger, M., Haskell, W., & King, A.C. (2013). Validation of Three Android Smartphones as Activity Monitors Compared to an Actigraph and Zephyr Bioharness. *Manuscript in Preparation*.

**Hekler, E.B.**, Grieco, L., Winter, S., Sheats, J., Buman, M.P., & King, A.C. (2013). Results of a Randomized Study of Calorific – A Commercially Available Diet-Tracking Smartphone Application. *Manuscript in Preparation*.

**Hekler, E.B.**, McDonald, D. Poole, E., Li, V. Eikey, E., Riley, K., & Sweeney, J. (2013). How Effective are Online Support Groups for Promoting Weight Loss? *Manuscript in Preparation*.

### **Under Review** (N=7, senior author n=1)

Riley, W.T., Martin, C.A., Rivera, D.E., **Hekler, E.B.**, Buman, M.P., Adams, M.A., Pavel, M., & King, A.C. (2013). The Development of a Control Systems Model of Social Cognitive Theory. *Manuscript Submitted for Publication*.

Spruijt-Metz, D., Saranummi, N., Intille, S., Korhonen, I., Nilsen, W., Spring, B., **Hekler, E.B.**, Michie, S., Hendriks, M., Rivera, D.E., Asch, D.A., Sanna, A. Traver Salcedo, V., Kukakfa, R., & Pavel, M. (2013). Building New Computational Models to Support Health Behavior Change and Maintenance: New Opportunities in Behavioral Research. *Manuscript Submitted for Publication*.

Klasnja, P., **Hekler, E.B.**, Froehlich, J. & Buman, M.P. (2013). Nine Questions for the Design and Evaluation of Behavior-Change Technologies. *Manuscript Submitted for Publication*.

Martin, C.A., Rivera, D.E., Riley, W.T., **Hekler, E.B.**, Buman, M.P., Adams, M.A., & King, A.C. (2013). A Dynamical Systems Model of Social Cognitive Theory. *Manuscript Submitted for Publication*.

Philips, L.A., & **Hekler, E.B.** (2013). Maintenance Mechanisms of Exercise Habit: Self-Concept Preservation and Intrinsic Motivation-Negative Reinforcement. *Manuscript submitted for Publication.*

Chen, F.X., King, A.C., & **Hekler, E.B.** (2013). Designing Health Messages: Framing Exergames for Exercise Improves Duration of Use. *Manuscript submitted for publication.*

**In press** (N=7, first author n=0)

Adams, M.A., Sallis, J.F., Norman, G.J., Hovell, M.F., **Hekler, E.B.**, & Perata, E. (2013). An Adaptive Physical Activity Intervention for Overweight Adults: A Randomized Controlled Trial. *PLoS One.*

Johnson-Glenberg, M.C., & **Hekler, E.B.** (in press). Alien Health Game: Embodied, Motion-Capture Exergame on Nutrition and MyPlate. *Games for Health Journal.*

Buman M.P., Winkler E.A.H., Kurka J.M., **Hekler E.B.**, Baldwin C.M., Owen N., Ainsworth B.E., Healy G.N., & Gardiner P.A. (in press). Alternating Sleep, Sedentary, and Active Behaviors. Effects on Cardiovascular Disease Risk Biomarkers, NHANES 2005-2006. *American Journal of Epidemiology.*

McMahon, S., Vankipuram, M., **Hekler, E.B.**, & Fleury, J. (2013, online first). Design and Evaluation of Theory-based Technology to Enhance Motivation for Physical Activity that Reduces Fall Risk. *Translational Behavioral Medicine*, doi: 10.1007/s13142-013-0221-4.

King, A.C., **Hekler, E.B.**, Castro, C.M., Buman, M.P., Marcus, B.H., Friedman, R.H., & Napolitano, M.A. (2013, online first). Exercise Advice by Humans versus Computers: Maintenance Effects at 18 Months. *Health Psychology*, 10.1037/a0030646.

**A DIY Self-Experimentation Toolkit for Fostering User-Driven Behavior Change**

PI: Hekler, E.B.

Funder: Google Corporation

Abstract: The goal of this project is to build on human-computer interaction (HCI) research; behavioral science; and our own work to create a DIY self-experimentation toolkit for fostering self-experimentation of strategies for creating better behavioral routines. The DIY toolkit will include (a) a Google tracking tool (i.e., Paco), (b) a design portal to foster translation of lessons of behavioral science into personal and customizable behavior change strategies, and (c) a UbiComp system (GaLLaG [Game as Life--Life as Game]) that includes wireless home-based sensors (e.g., motion or pressure sensors) and programmable contingency feedback mechanisms (e.g., playing audio files via wireless speakers in the home; see previous research section).

Timeline: 9/01/13-8/1/2014

Funding: \$60,325 (0% Indirects)

### **Development of a mHealth Physical Activity Real-Time Adaptive Intervention**

PI: Hekler, E.B.

Funder: Virginia G. Piper Charitable Trust (Internal SNHP Grant)

Abstract: In this project, the goal is to develop a physical activity smartphone app that can “learn” and adapt to an individual’s response to various intervention patterns to identify the “right” intervention component (e.g., positive reinforcement) to be delivered at the “right” time and place (e.g., right before leaving work) over an extended period of time based on the user’s response to the intervention.

Timeline: 7/01/13 – 12/31/14

Funding: \$49,348 (0% Indirects)

### **Jawbone Steps and Sleep Validation Study**

PI: Buman, M.P.

Role: Co-Investigator involved in study design & student supervision

Funder: Jawbone, Inc.

Abstract: The purpose of this study is to test the accuracy of the Jawbone UP Band, a commercially-available wrist-worn accelerometer to measure daytime physical activity (via steps and activity time) and sleep under laboratory and free-living conditions.

Timeline: 5/5/13-8/31/13

Funding: \$107,255 (66% Indirects)

### **Using Stakeholder Feedback to Modify a VA Mobile Application for Insomnia Self-Management**

PI: Epstein, D.

Role: Co-Investigator

Funder: Department of Veterans Affairs, Polytrauma/Blast-Related Injury QUERI

Abstract: The purpose of the project is use provider and Veteran feedback to adapt the “VA CBTI Coach” smartphone application for use in a VA stepped care approach for low to moderate intensity insomnia intervention in OEF/OIF/OND Veterans.

Timeline: 4/1/13-9/30/13

Funding: \$20,000 (0% Indirects)

### **Biobehavioral exercise-sleep synergies for cardiometabolic health**

PI: Buman, M.P.

Role: Co-Investigator (support app design)

Funder: Virginia G. Piper Charitable Trust (Internal SNHP Grant)

Abstract: The purpose of this study is to develop three smartphone-based interventions that individually target sleep, sedentary, and more active behaviors and to study the impact on cardiometabolic health in US Veterans with metabolic syndrome.

Timeline: 7/01/13 – 12/31/14

Funding: \$48,667 (0% Indirects)

**Can text-message referral to evidence-based websites improve physical activity in pregnant women?**

PI: Huberty

Role: Co-Investigator (Support text message creation)

Funder: Virginia G. Piper Charitable Trust (Internal SNHP Grant)

Abstract: The purpose of this study is to develop text-messages that can be integrated into the national Text4Baby system for promoting increased physical activity among pregnant women.

Timeline: 7/01/13 – 12/31/14

Funding: \$50,000 (0% Indirects)

---

**Past Grants** (Total Funds=\$1,066,278; Total as PI=\$ 10,000)

---

**Modifying Physical Activity & Sedentary Behavior via Mobile Phone Technology**

PI: King

Role: Grant co-author, Project Director, Investigator

Funder: NHLBI-1RC1 HL099340

Abstract: The goals of this Challenge grant are to develop and empirically test two mobile phone-delivered interventions to promote daily increases in walking and decreases in television viewing time among adults.

Timeline: 09/30/09 – 07/31/12

Funding: \$967,378 (66.7% Indirects)

**Improving Objective Health Indicator Feedback via Smartphones and the “Cloud”**

PI: King

Role: Grant co-author, Project Director, Investigator

Funder: Google Corp.

Abstract: This study explores methods for providing feedback from “cloud” enabled assessment devices (e.g., body weight scales, blood pressure and heart rate monitors that connect to the internet) to individuals with Android smartphones.

Timeline: 12/10 – 12/11

Funding: \$88,900 (0% Indirects)

**Developing Community-Based Neighborhood Audit Tools to Promote Healthful Eating and Active Living in Local Counties**

PI: King

Role: Investigator

Funder: Stanford Office of Community Health

Abstract: The goal of this project is to develop an easy-to-use environmental audit tool to assess physical activity and food environments and scaling this information to policymakers.

Timeline: 08/10 – 04/11

### Assessing the Impact of 2010 Santa Clara County Ordinance Banning Toys and Other Incentives with Unhealthy Restaurant Food Purchases

PI: Otten

Role: Investigator

Funder: The Obesity Society

Abstract: The goal of this study is to examine the impacts of a recent county ordinance banning toys and other incentives on child-specific menu choices, restaurant environment, and parent perception and behavior.

Timeline: 01/10 – 01/11

### Illness Representations and Health Behaviors in Heart Surgery Patients

PI: Hekler

Funder: Pilot grant from NIA-funded Center R24 AG023958

Abstract: This grant supported a longitudinal study examining the influence of commonsense beliefs prior to heart surgery on subsequent nutrition, physical activity, and medication adherence.

Timeline: 9/01/06 – 6/01/08

Funding: \$10,000 (0% Indirects)

---

## Teaching

---

### Arizona State University

#### *Informatics PhD – Curriculum Development Committee Member*

Role: SNHP representative to an ASU-wide working group focused on developing an interdisciplinary PhD Program in Informatics. Application is currently being reviewed for possible creation of this program at ASU that would span multiple colleges within the University.

#### *NTR 598- Designing Health Behavior Change Interventions*

Role: Developed concept of course and teach the class

Class size: 10-20 graduate students per semester

Focus: Fundamentals for Designing Health Interventions

Semesters Taught: Fall 2011; Spring 2012; Fall 2013

Most Recent Evaluation: Course Overall: 4.9/5.0, Instructor Overall: 5.0/5.0

#### *NTR 300 - Computer Applications in Nutrition*

Role: Designed and taught this all online course

Class size: 40 undergraduate students

Focus: Taught basics in using technologies (e.g., webpage development, use of social media, smartphone apps) within a nutrition context

Semesters Taught: Fall 2012; Spring 2013; Fall 2013

Most Recent Evaluation: Course Overall: 3.3/5.0, Instructor Overall: 3.78/5.0

***Residential College Advisory Board (RCAB) Faculty Advisory for pHC (PreHealth)***

Role: Provided faculty mentorship to undergraduate pre-health students living in Taylor Place downtown.

Focus: Support students, particularly freshman with their transition to college.

Semesters Taught: Spring 2012

**Stanford University**

***Food and Society***

Primary instructors: Thomas Robinson and Christopher Gardner

Role: Teaching assistant, co-developer of the course

Class size: 22 undergraduates

Semesters Taught: Winter 2009

Focus: Food-related social issues in the US

**Rutgers University**

***PSY 101 Introduction to Psychology, Rutgers University***

Role: Designed and taught a course on psychology fundamentals

Semesters Taught: Summer 2006

Class size: 30 undergraduates

Evaluation: Overall effectiveness score: 4.8/5

***PSY 101 Gateway: Introduction to Psychology Recitation, Rutgers University***

Lecture Instructors: Steven Barnhart, 2005, Len Hamilton, 2006

Role: Recitation Instructor

Class size: 15 undergraduates

Semesters Taught: Fall 2005; Fall 2006

Focus: Taught basics of psychology to students with an identified learning problem

***Teaching Effectiveness Seminar, Rutgers University***

Instructors: A variety of experienced teachers at Rutgers.

Role: Organized and redesigned graduate-level course on undergraduate teaching skills

Semesters Taught: Fall 2004; Fall 2005

Class size: Approximately 20 first year graduate students per semester

***Health Psychology, Rutgers University***

Instructor: Eric Hekler

Role: Designed and taught a course surveying health psychology.

Class size: 30 undergraduates, 2004; 50 undergraduates, 2005.

Semesters Taught: Summer 2004; Summer 2005

Evaluation: Overall effectiveness score: 4.83/5

### *Teaching Assistant*

Instructors: A variety of professors at Rutgers.

Role: Responsible for grading and teaching individual class sessions when needed for three to four lecture classes per semester.

Semesters Taught: Fall 2002; Spring 2003; Fall 2003; Spring 2003; Spring 2006; Spring 2007

Class sizes: Varied from 15 to 300 undergraduates.

---

### **Guest Lectures**

---

#### *CTI 294, Make Your Ideas Happen*

Instructor: Richard Filley (College of Technology & Innovation)

Date: Spring 2013

Focus: Participated as a guest lecture and mentor for students in the class focused on creating a start-up.

#### *NTR/EXW791, PANW, Doctoral Seminar*

Date: 1/31/12; 1/27/13

Focus: Invited guest lecture focused on mentoring graduate students. Received unsolicited positive feedback from one of the students (available upon request).

#### *EEE 598, Personal Sensors for Mobile Health Applications,*

Instructor: Nongjian Tao (Biodesign Institute)

Date: 2/27/12

Focus: Invited guest lecture focused on using behavior change technologies for tracking physical activity and providing feedback.

#### *NTR/EXW691, Health Promotion Theory Course*

Date: 11/13/12

Focus: Invited guest lecture focused on using technology in health promotion research for Dr. Der Ananian.

#### *NTR/EXW691, PANW, Doctoral Seminar*

Date: 11/21/11

Focus: Invited guest lecture focused on using technology in health promotion research. Received positive peer evaluation from Dr. Barbara Ainsworth (available upon request).

## Clinical

---

### VA Maryland – Baltimore

#### *Trauma Recovery Program Rotation*

Dates: 03/08 - 6/08

Population: Veterans with comorbid post traumatic stress disorder (PTSD) and substance abuse.

Assessment: Performed comprehensive batteries for assessing PTSD

Treatment: Performed individual and group therapy for treating PTSD and substance abuse. Used Cognitive Behavioral Therapy (CBT) and Acceptance and Commitment Therapy (ACT) techniques.

Supervisor: Lorie Morris, PsyD

#### *Primary Care/Chronic Pain Rotation*

Dates: 11/07 - 03/08

Population: Veteran patients seen in the primary care clinic or chronic pain clinic.

Assessment: Assessment of psychosocial problems impacting medical care and quality of life.

Treatment: Performed brief disease management and mental health interventions. Ran group for chronic pain using Acceptance and Commitment Therapy.

Supervisor: Stephen Bono, PhD

***Couples Therapy Minor Rotation***

Dates: 09/07 - 06/08

Population: Veteran patient with spouse.

Treatment: Couples therapy using emotional focused therapy.

Supervisor: Neil Weissman, PsyD

***Health Psychology Rotation***

Dates: 07/07 - 11/07

Population: Veterans requiring disease and/or chronic pain management.

Assessment: Assessed mental and physical health issues among patients.

Treatment: Led 6-week smoking cessation group multiple times. Chronic disease management via Acceptance and Commitment Therapy.

Supervisor: W. Clint McSherry, PhD

**Rutgers University**

***Generalized Anxiety Disorders Practicum***

Dates: 07/06 - 05/07

Population: Older adult patients with generalized anxiety disorder patients in randomized clinical trial (RCT).

Assessment: Assessed for GAD in older adults using the SCID-IV and 1 hour neuropsychology battery.

Treatment: Therapist for RCT using CBT techniques.

Supervision: Peer-supervisor for other therapists working on RCT.

Supervisor: Jan Mohlman, PhD

***Neurobehavioral Institute of New Jersey***

Dates: 06/05 - 06/06

Population: Patients with traumatic brain injury (TBI), dementia and/or a learning disability.

Assessment: Neuropsychology trainee – administered 8 hour neuropsychology battery weekly. Experience with: WAIS III, WISC-IV, WMS-III, WIAT-III, CVLT, MMPI-2, Category Test, Hiscock, Rey 15, WRAT-3, Stroop, Trails, Boston Naming, CPT-2.

Treatment: Co-leader of a stress-management group. Cognitive-behavioral therapist with individual clients – treated depression following TBI; Cognitive remediation work with TBI patients – focused on cognitive functioning.

Supervisor: Lynette McKeon, PsyD

***Program for Addictions Consultation and Treatment***

Dates: 09/04 - 08/05

Population: Ethnically diverse alcohol and other substance abuse patients.

Assessment: Assessed for substance abuse using clinical interview, SCID, and self-report.

Treatment: Individual and group therapist – CBT and motivational interviewing techniques used.

Supervisors: James Langenbucher, PhD and Barbara McCrady, PhD

**Rutgers Psychological Clinic**

Dates: 09/03 - 06/04

Population: General outpatient clinic.

Assessment: Conducted mental status exams and intelligence testing (WAIS-III; WMS-III)

Treatment: Cognitive Behavioral Therapist for depression and OCD.

Supervisors: Daniel Fishman PhD and Donald Morgan, PsyD

---

**Service**

---

**School of Nutrition & Health Promotion/College of Health Solutions-Level Service**

***CONHI T32 Mentorship Support***

Dates: 05/13

Role: Agreed to be a mentor for the CONHI T32 Pre- and Post-doctoral fellows program.

***Affiliated Faculty for the University of Minnesota/ASU Public Health Program***

Dates: 9/13-

Role: Agreed to be a part of the new University of Minnesota/ASU Public Health Program Faculty; currently being reviewed a U of Minn.

***Funding Diversification Committee for SNHP***

Dates: 01/13 –

Role: Involved in a working group focused on devising strategies for leveraging and further supporting our fledging programming and development core through alternative sources of funding beyond grants.

***Health and Wellness Entrepreneurship Club Advisor***

Dates: 05/13 –

Role: Advise students in the health entrepreneurial activities

***Programming and Development Core Coordinator***

Dates: 05/12 –

Role: Organized the creation of the SNHP programming and development core including co-leading the hiring of Kevin Hollinshead with Steve Hooker and Henry Barto.

***Research Strategic Planning Committee Member***

Dates: 03/12 – 12/12

**Arizona State University-Level Service**

***City of Phoenix General Plan - ASU Advisory Board Committee Member***

Dates: 12/12 –

***Sustainable Food Task Force Committee Member***

Dates: 03/12 – 5/13

**National-Level Service**

***Workshop on Interactive Systems in Healthcare (WISH) 2013 Steering Committee Member***

Dates: 5/13-11/13

Role: Aided in the organization of this interdisciplinary (e.g., medical informatics, human-computer interaction designers/researchers, and behavioral scientists) including submission reviewer

***University of Michigan Workshop on Individualizing Real-Time Interventions, Participant***

Dates: 8/16/13

Role: Participated in a workshop focused on learning about and providing feedback to Susan Murphy and colleagues at the University of Michigan on their methodology for creating just in time adaptive interventions using reinforcement learning methods from computer science.

***National Cancer Institute's Big D.A.T.A. (Data And Theory Advancement) Workshop Participant***

Dates: 9/19-9/20/13

Role: Invited participant the workshop focused on defining future opportunities for behavioral theory with the advent of Big Data and respective analytic techniques.

***Society of Behavioral Medicine Behavioral Ontology Working Group***

Dates: 4/13-

Role: Working group organizer focused on developing a behavioral ontology for supporting improved communication and translation of behavioral theories into replicable science and technology processes.

***Society of Behavior Medicine Technology SIG – Co-Chair***

Dates: 04/13 – 4/15

Focus: Lead the Society of Behavioral Medicine Technology Special Interest Group. Organize meetings, content for the annual meetings, and organize collaborations and connections both within SBM and between SBM and industry partners.

***Society of Behavior Medicine, 2013 Development Committee Member***

Dates: 04/13 – 4/14

Role: Working group focused on support SBM's financial sustainability.

***American College of Sports Medicine, SHI-Behavioral Strategies Committee Member***

Dates: 06/11 – 6/14

***American College of Sports Medicine, Exercise is Medicine, Family Website Development Committee Member***

Dates: 06/11 – 6/13

***American College of Sports Medicine/Society of Behavioral Medicine, Initiative to Identify Evidence-based Practices for Exercise is Medicine, Committee Member***

Dates: 06/11 – 6/13

***Society of Behavior Medicine Technology Liaison - Committee Chair***

Dates: 04/12 – 4/13

*Society of Behavior Medicine, 2011 Conference Planning Committee*

Dates: 04/11 – 4/12

*Society of Behavior Medicine, 2011 Development Committee*

Dates: 04/11 – 4/12

*Assistant grant reviewer for the American Cancer Society*

Dates: 05/06 – 07/06

Role: Assisted Dr. Dorie Glover in reviewing two competitive multi-million dollar grants.

International-Level Service

*EPSRC Network for supporting technology-mediated physical activity research*

Dates: Request to participate 7/13 (pending final budgetary approval)

Role: Steering Committee Member focused on fostering improved international relations on technology-mediated physical activity promotion research.

Other Professional Services

*Peer reviewer for the following journals/conferences/fellowships*

**Quantified Self Phoenix/Scottsdale Co-Founder**

Dates: 9/2012-

Role: Co-founder and Meet-up organizer

**Phoenix Symphony Young Professionals**

Dates: 9/2011-

Roles: Membership Committee Chair, first year; Membership Committee Member, year two

**Service at Previous Universities**

**Co-Organizer of postdoctoral roundtable discussions, Stanford**

Dates: 09/10 – 08/11

Role: Co-organizing colloquium series for fellow post docs at SPRC.

**Clinical psychology graduate student representative, Rutgers**

Dates: 09/03 - 05/05

Role: Participated in faculty meetings to voice concerns of the clinical psychology students and planned events such as graduate student picnic.

**Middle Earth Crisis Hotline, SUNY, Albany**

Dates: 09/00-05/02

Roles: Counselor – dealt with a range of issues including suicidal behavior. Resource trainer – trained other counselors in proper hotline counseling techniques. Vice-president – co-led the group/planned events including a yearly conference.

**Mental health technician and unit coordinator, Benedictine Hospital**

Dates: 05/00-08/00; 05/01-08/01; 05/02-08/02

Role: Involved in direct patient care of patients with serious mental illness an inpatient unit. As unit coordinator, communicated with administration and ordered medications.
